

FOR IMMEDIATE RELEASE

Sublime Solution Inc. Announces Regional Premier partnership for North American with Replify, Leader in Software Application Acceleration and WAN Optimization for VMware and Microsoft Windows

Sublime Solution will offer Reptor Acceleration Suite by Replify to customers in North America as the Leading Solution for WAN Optimization and Application Acceleration to help customers greatly improve user experience within their web applications.

Manchester, NH., March 16, 2009 – Sublime Solution Inc. today announced the [Regional Premier North American Partnership](#) with Replify, a provider the only 100% software Application Acceleration and WAN Optimization product for VMware, HyperV, Xen Server and Virtual Iron. This partnership will compliment Sublime Solutions current sales of VMware enabling their customers to enjoy massive improvements in application response time. Reptor Accelerator eliminates unnecessary WAN traffic, reducing expensive bandwidth costs.

Replify Reptor Accelerator Suite is a virtual appliance which means it is a 100% software solution for customers looking to accelerate WAN traffic between corporate computing resources. The Reptor Accelerator Suite is able to improve remote user experience through compression, XDR, protocol manipulation, and TCP optimization.

Customers using collaborative web applications are seeing vast improvements among user experience. Reptor claims to reduce 95% of web traffic for further enhanced FTP and remote file sharing capabilities.

“Business as we know it today is changing as more and more tools become available for corporations to expand globally yet work collaboratively through virtual applications. With these new business processes and the rising numbers of remote users and virtual offices it is important to take advantage of collaborative web applications. These tools will prove useless to organizations if the communication between users is weak and experiences constant bandwidth interruptions. Replify addresses this challenge with their Reptor Suite. The Replify Reptor Acceleration Suite is an essential tool for companies working globally or with remote offices.” stated Jason Schuerhoff, Director of Sales and Business Development, Sublime Solution.

About Sublime Solution Inc.

Headquartered in Londonderry, New Hampshire, Sublime Solution Inc. provides IT and data center managers with high quality and cost effective software solutions for their virtualization infrastructures.
