

FOR IMMEDIATE RELEASE

## Sublime Solution Inc. announces the vSphere Ready Essentials Program

*The Sublime vSphere Ready Essentials Program (vREP) offers a turn-key solution that delivers high-availability and business continuity. This has been previously available only to enterprise organizations. These bundles reduce the complexity of virtualization planning and implementation cycles and are easily sourced for business community.*

### **Manchester, NH., June 23 2009**

Sublime Solution Inc., a global IT provider specializing in virtualization solutions, today announced the vSphere Ready Essentials Program to help organizations obtain this kind of technology by minimizing complexity and the steep investment.

The three bundles that make up vREP provide customers with complete solution that includes hardware as well as software, training and professional services. Sublime has bundled enterprise class solutions from VMware, Veeam, Dell and NexSan in order to deliver vREP and its return on investment that organizations require in today's economy.

The solutions being highlighted in the Sublime's vSphere Ready Essentials Program include:

**VMware** - Designed especially for small IT environments with fewer than 20 physical servers, the VMware vSphere 4 Essentials Editions deliver enterprise-class capabilities in a cost-effective solution package for organizations that want to optimize and protect their IT assets with minimal up-front investment. VMware vSphere Essentials provides an all-in-one solution for small offices to consolidate and manage many application workloads while reducing hardware and operating costs with a low up-front investment. VMware vSphere Essentials Plus adds high application availability and data protection for a complete server consolidation and business continuity solution for the small office IT environment.

**Veeam** - Veeam Software, award-winning provider of systems management tools for VMware virtual datacenter environments, today introduced new product bundles designed to pair with VMware vSphere Essentials for small office deployments and with the VMware Acceleration Kits for organizations of all sizes just starting out with virtualization. Veeam Backup & Replication, Veeam Reporter & Veeam Monitor.

**Dell** - Dell's most versatile server, the PowerEdge™ 2950 III offers superior 2-socket virtualization performance combined with optional, factory integrated virtualization capabilities. Dell continues to Simplify Virtualization by streamlining virtualization deployment and providing ease of use in virtual infrastructures.

**NexSan** - SATABoy provides organizations with unparalleled storage flexibility to meet real world business objectives. The highly scalable SATABoy enables cost-effective storage of large amounts of information online, while its exceptional performance ensures faster response times for mission critical applications. SATABoy is equally capable of delivering high IOPS for transactional applications and sustaining maximum MB/s throughput for high bandwidth applications such as streaming media.

### **About Sublime Solution Inc.**

Headquartered in Londonderry, New Hampshire, Sublime Solution Inc. provides IT and data center managers with high quality and cost effective software solutions for their virtual infrastructures. Delivering enterprise-class technical support and professional services, Sublime provides ready access to IT resources necessary for customers to choose the right technologies for their business needs.
